

Making your communication passport digital – your story, your words

- You can see all the information in your communication passport on your phone at any time
- You can share everything thats important to you with your support team, family, friends and proffessionals like doctors and hospital staff
- You can add as much information as you like to let people know how best they can support you
 - You can add videos and record in your own voice what matters to you and show this to all the important people in your life, they can even see it on their own phones
- Choose who you want to be a member of your passport so they can keep up to date on all the important things about you – and even listen to your recordings about what YOU say is important to you
