

BWYC

Bromley Well Young Carers

“ BWYC support over 600 young carers. They wanted a custom built App, by understanding their requirements we were able to use our ConnectMi product and develop some additional features which saved them time and money. ”

WHAT DOES THE BWYC APP OFFER?

Wellbeing Tracking

Young carers can easily monitor their mental and emotional health over time using an intuitive tracker. This empowers them to reflect on how they're feeling and recognise when they might need additional support.

Community Forum

A safe, moderated space where young carers can connect with peers who understand their unique challenges. Whether sharing advice, celebrating small wins, or simply chatting, this forum provides a vital sense of community.

Resources and Tools

Access a library of helpful information, including advice on managing stress, balancing responsibilities, and making the most of support services available through Bromley Well.

Why Is This App So Important?

Young carers often feel isolated or overwhelmed by their responsibilities. The BWYC App ensures they have access to a supportive network and tools to help them thrive. It not only empowers them to take control of their wellbeing but also fosters connections that remind them they're not alone.

“ Our Bromley Well Young Carers Service has found ConnectMi to be a highly useful tool. Its user-friendly design has revolutionised the way we interact with our young carers. The added value of excellent support from Stuart and his team throughout this process has been much appreciated. ”

EDDIE LYNCH MBE, CHIEF EXECUTIVE, BROMLEY MENCAP
