

H2T NEWS

IT'S ALL ABOUTMI

We're incredibly proud to introduce AboutMi, our brand-new digital communication passport designed to amplify voices and make sharing personal, emergency, and care-related information easier, safer, and more accessible.

Born out of a collaboration with the LD project and co-produced alongside PCP facilitators across North Wales and the SuS Group, AboutMi transforms the traditional paper passport into a powerful web app.

AboutMi

Here's what you can expect:

- No more printing or damage risks
- Accessible anytime, anywhere via secure QR links
- Real-time updates and person-centred access
- Co-produced with people who understand what works

Facilitators say AboutMi saves time, improves accessibility, and makes it easier to keep information accurate and up to date – all while enhancing safety and security.

WELLNUTS

Did you know Here2there is home to the vibrant WellNuts community?

Whether you're a parent of a neurodiverse child, navigating tricky systems, or just looking for a dose of real talk and support, WellNuts is here to help you feel seen and heard.

- Follow us on [Instagram](#) @wellnuts parents
- Catch our WellNuts Podcast on your favourite platform
- Explore weekly blogs, book reviews, real stories, and wellbeing tips
- Join the conversation about policy changes affecting families like yours

There's something for every stage of the parenting journey.

BREAKING NEWS

FORMI NEWS

ForMi is coming Soon for Individuals and Families!

Until now, ForMi was only available through services and organisations. But the word has spread, and demand from individuals and families has been growing steadily. We've listened and we're thrilled to announce ForMi for Me, designed so you can now access this powerful progress-tracking and wellbeing tool directly.

In true H2t style we are co-producing some new features and including all the tools people already love so watch this space for more info.

REFLECTIVE PRACTICE

We've been rolling out Reflective Practice and Action Learning Sets training across services in North Wales – and the feedback is in. It's making a real difference:

"Identifying the difference between coaching and mentoring has helped us solve problems more collaboratively."

"It gave us time and space to reflect as a team – so valuable."

"I've already recommended it to others – it's changed how we work and communicate."

We're so glad to see it's having impact – and we're ready to bring it to more teams. Could yours be next?

SHOUT OUT TO GOFAL SEREN – MAKING WAVES FOR INCLUSION

We're proud to be supporting Gofal Seren, a new charity providing swimming opportunities for children with high support needs.

Using our ConnectMi platform, they're now managing session bookings, community polls, and keeping families in the loop – all in one secure place.

It's a perfect example of tech making lives easier, without losing the human touch.

Let's Stay Connected

Remember, everything we do is rooted in helping people progress, connect and improve their wellbeing – whether through technology, community, or practice development.

We'd love to hear from you and help you explore how our wider range of services could support your work and your people.
